

U15 Victor Soccer Club Player Development Season Training Plan

What technical skills should I be teaching my players? When do I start teaching tactics to my team? What goals are realistic for my players to achieve by the end of the season? These are some of the biggest questions youth soccer coaches are confronted with at the start of a new season. Planning your training sessions for the week and for the entire season will help you deliver a more efficient training session on a consistent level. Properly preparing a training session will give the coach greater confidence with the players and a better understanding of how to adapt the exercises to the team's and players' needs on the field. Every team and every player has different ability levels and it is extremely important that your practices and training exercises meet the needs of the players at their particular age groups. A good coach is a good planner and I hope both you and your players will benefit from the materials I have put together for you to use!

BY THE END OF THE SEASON THE PLAYER MUST BE CAPABLE OF:

Playing short passes at speed in small spaces

Coordination of tactical principle movements with teammates at speed

Show good fitness in mid/high demanding aerobic power practices

U15 Training Topic Chart

Using the training topic chart below will provide you with a better idea of what technical skills and tactical skills should be taught for particular age groups. The numbers 1-5 will designate the importance of coaching/teaching the different technical and tactical aspects of the game. For example, a number 5 in passing and receiving means that this element is extremely important to train at that age. **Emphasis Key: 5 = very high, 4 = high, 3 = mid, 2 = low, 1= very low, 0 = none**
